To Whom It May Concern

Services rendered by DNA to Open Learning Group

The Open Learning Group (OLG) has enjoyed a successful relationship with DNA over the past five months.

During this time, DNA was contracted to do space planning, demolition of the premises, and a complete turn-key design and implementation for three learning support centres in Johannesburg, Pretoria, and Durban respectively. DNA assisted with some of the design concepts and elements which were implemented per the brief and expectations of OLG.

DNA understood the urgency and timeframes of OLG and delivered a quality product. OLG was always kept informed of situations on site for the duration of the project. Any problems incurred were dealt with effectively. There was always an open line of communication between OLG and DNA.

DNA was available to discuss any queries or issues. DNA interacted with the respective landlords on OLG's behalf in solving delays from their side.

We have experienced overall satisfaction and would recommend DNA to any other institution looking for a turn-key interior.

Yours faithfully

A handwritten signature in black ink, appearing to read "LC van der Merwe". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
