To whom it may concern

I would hereby like to confirm that DNA Design Associates was contracted by the SACU Secretariat as Interior Designers for their new SACU Headquarters building in Windhoek, Namibia. The total scope of the contract included amongst other the interior design, space planning, furniture layout, tender process and project management over four floors.

The SACU Secretariat is much satisfied with the management of this portfolio by the said Interior Designer, which has performed within budget and in line with the terms of reference. Regular scheduled meetings between the Secretariat and DNA Design Associates ensured feedback based on services and quality and proposals with reference to improved service performances were exchanged between the said parties.

Based on the above-mentioned we, the SACU Secretariat, would like to recommend DNA Design Associates for any future corporate contracts or tenders of this nature.

Please do not hesitate to contact me should you require any further information in this regard.

Yours sincerely
